Newrange Gold Corp.

Where Exploration Intersects Discovery

CORPORATE PROFILE

Newrange Gold Corp. (TSXV: NRG) was incorporated in 2006 as Colombian Mines Corporation, dedicated to exploring and advancing high quality mineral properties in Colombia. In July 2016, the Company diversified into the United States by acquiring the high-grade **Pamlico gold project in Nevada**, which is now the focus of its exploration and development work. The Company continues to hold two quality gold projects in Colombia: **El Dovio**, which will soon see substantial exploration work under a recent joint venture agreement and **Yarumalito**. With an experienced, highly successful management and technical team, Newrange Gold is committed to build long-term, sustainable value for all stakeholders.

NEVADA

- 5th largest gold producer in the world
- 169.1 M oz of gold prod. since 1835
- 3rd most desirable mining jurisdiction

WALKER LANE

- Over 53 M oz of gold and 519 M oz of silver historic production
- Home of Round Mountain mine (Kinross)

PAMLICO GOLD PROJECT

- Unique, almost unexplored opportunity in Nevada
- In private hands since 1896
- District scale (1,670 hectares)
- Over 300 old workings
- 600 foot modern decline
- Power line on property

PAMLICO EXPLORATION HIGHLIGHTS

An aggressive, ongoing exploration program continues at Pamlico. Results to date have been highly successful, confirming district scale gold discovery potential.

WORK DONE BY NEWRANGE GOLD (past 24 months)

- Maiden sampling of Merritt decline
- Phases I, II & III drilling (47 holes with 87% hit rate)
- Property wide magnetic, radiometric and gravity surveys
- Surface and underground mapping and sampling (ongoing)
- Initiated metallurgical testing (ongoing)

RESULTS HIGHLIGHTS

- Multiple high-grade and disseminated gold drill intercepts
- Discovery of multiple new high-grade gold zones (Merritt Area)
- Identification of open ended, 500 meter long, 130 meter wide, NW-SE trending gold mineralized corridor

Select **high-grade, 100% oxidized, shallow** (0- 75 m) drill intercepts:

- DH P17-08: **9.1 m @ 28 g/T Au** (incl. 1.5 m @ 85 g/T Au)
- DH P17-10: **6.1 m @ 98 g/T Au** (incl. 1.5 m @ 341 g/T Au)
- DH P17-17: **4.6 m @ 44 g/T Au** (incl. 0.8 m @ 244 g/T Au)

Note: *Intercepts are uncapped average of all samples in drilled intercept. All intercepts are drilled length and do not imply true width. Additional results are available at www.newrangegold.com*

PAMLICO EXPLORATION PLANS & GOALS - 2018 and 2019

Preliminary Metallurgical Studies

- In progress – Results Q4/18 through Q2/19

Underground Mapping and Sampling (300+ old workings)

- Heavy news flow: Q4/18 – Q1/19

Drilling – Pamlico Ridge/Merritt Area

- Starting Q1/19 through Q3/19

Maiden Resource Estimate – Pamlico Ridge/Merritt Area

- Q3/19

Drilling – Gold Box and Pediment Targets

- Q3/19 and Q4/19

Goal is to define a multi-million ounce gold deposit

EL DOVIO PROJECT – COLOMBIA

GOLD-RICH POLYMETALLIC DISCOVERY

Active JV option to Andean Mining Corp. (Australian Co.)

- “Stringer” zone: 1 km strike length and 68 meters apparent widths in outcrop
- Large VMS target remains unexplored
- Excellent metallurgy (96.4% recovery for gold, etc.)
- Select high-grade drill results:
 - 12.4 m @ 4.0 g/T Au, 20 g/T Ag, 4.2% Cu
 - 6.9 m @ 5.9 g/T Au, 34.3 g/T Ag, 5.9% Cu, 1.3% Zn

YARUMALITO PROJECT – COLOMBIA

LARGE, GOLD-COPPER PORPHYRY AND VEINS SYSTEMS

- **Escuela porphyry:** 1 km X 0.4 km, drilled to 850 meters down dip and open (18,000 meters or drilling done)
 - Drill intercepts from 10 to 257 meters. **Weighted avg. of 0.51 g/T Au over 65.8 meters**
- **Balastreras porphyry:** Limited drilling indicates similar size and grade to Escuela porphyry
- **Culebra Shear Zone:** 2.5 km long high-grade epithermal mineralized zone
 - Drill intercepts from **5.9 meters @ 8.7 g/T Au to 1.9 meters @ 33.75 g/T Au**

Note: Intercepts (Colombia) are uncapped average of all samples in drilled intercept. All intercepts are drilled length and do not imply true width. Additional drill results are available at www.newrangegold.com

SHAREHOLDER VALUE BUILDING MODEL

- Methodical, systematic, low cash burn exploration of Pamlico to unlock its exceptional potential
- Minimize dilution by joint venturing, monetizing Colombian assets
- Opportunistic approach to acquire other high potential gold projects in USA

MANAGEMENT AND DIRECTORS

| | |
|----------------------|--|
| Robert G. Carrington | President, CEO and Director |
| Dave Cross | Chief Financial Officer |
| Gloria Carrington | President – CMC Colombia and Country Manager |
| Robert Archer | Director |
| David Salari | Director |
| Ron Schmitz | Director |
| Paul Wang | Director |

SHARE STRUCTURE – October 29, 2018

| Shares | Number |
|----------------------------|-------------|
| Issued and Outstanding | 89,747,487 |
| Warrants | 22,679,127 |
| Warrants – RMM acquisition | 1,700,000 |
| Stock Options | 4,386,403 |
| Fully Diluted | 118,513,017 |
